

AMENDED VERSION

CLAIMS

22 A hose assembly comprising:  
an inner tubular liner (12) of a fluorocarbon polymer;  
a dispersion comprising a material applied to said inner liner (12);  
a braided layer (13) positioned about the inner liner (12) whereby said  
dispersion prevents relative movement of the braided layer (13) to the inner liner (12); and  
a second dispersion comprising a material applied to said braided layer  
(13).
